PROFESSIONAL SUMMARY

Computer Science and Data Analytics undergraduate at IIT Patna with strong understanding of data analytics, KPI driven decision making, and business insights generation. Skilled in Python, SQL, Excel, and Power BI with hands on experience in exploratory data analysis, dashboard development, and transforming raw data into actionable insights for business growth.

EDUCATION

Indian Institute of Technology Patna <i>BS in Computer Science and Data Analytics</i>	2023 – 2027 CPI: 9.06 / 10
---	-------------------------------

SKILLS

Programming and Analytics: Python, SQL, Java, Excel, Power BI, MySQL
Data Analytics: Exploratory Data Analysis, KPI Tracking, Dashboard Development, Data Cleaning, Statistical Analysis, Business Insights, Data Visualization
Libraries and Tools: Pandas, NumPy, Matplotlib, Git, GitHub, VS Code
Generative AI Tools: ChatGPT, Claude AI, Gemini, Perplexity AI, GitHub Copilot, Cursor AI
Soft Skills: Analytical Thinking, Problem Solving, Communication, Team Collaboration

EXPERIENCE

Summer Research Intern – NIT Srinagar <i>Department of Computer Science and Engineering</i>	June 2026 – Present On Site
---	--------------------------------

- Selected for Summer Research Internship under faculty guidance
- Worked on research oriented analytical tasks and data driven problem solving
- Collaborated on technical documentation and analytical workflows
- Applied research methodologies and analytical thinking

Data Analytics Research Intern – IIT Bhilai <i>Research Internship</i>	Jan 2026 – Apr 2026 On Site
--	--------------------------------

- Cleaned and analyzed structured datasets using Python and Excel
- Conducted exploratory data analysis to identify trends and patterns
- Built visualizations and reports for analytical interpretation
- Applied statistical approaches to solve analytical problems
- Documented findings and methodologies for research communication

Data and Business Operations Intern – INGLU <i>Operations and Analytics</i>	Dec 2025 – Feb 2026 Remote
---	-------------------------------

- Analyzed operational KPIs and execution timelines for business tracking
- Maintained structured workflow reports and analytical dashboards
- Collaborated with teams to improve operational efficiency
- Supported business decision making through data insights

PROJECTS

Food Delivery Analytics Dashboard | GitHub

Python, Excel, Power BI

- Analyzed delivery datasets to identify trends and bottlenecks
- Tracked KPIs such as delays, ratings, and efficiency
- Built interactive dashboards for monitoring
- Generated insights to improve operational performance

E Commerce Store Analysis | GitHub

Python, SQL, Power BI, Excel

- Performed analysis on sales and customer datasets
- Studied purchasing behavior and revenue patterns
- Built KPI dashboards and reports
- Generated insights for pricing and inventory decisions

Personal Portfolio Website | GitHub

HTML, CSS, JavaScript

- Developed responsive portfolio website
- Designed clean UI for recruiter accessibility
- Integrated GitHub and LinkedIn visibility

LEADERSHIP AND ACHIEVEMENTS

- Received Academic Letter of Recommendation from IIT Patna faculty
- Selected for McKinsey Solve Assessment
- Media and PR Coordinator at TEDx IIT Patna
- NSS Coordinator handling operations and events
