

PROFESSIONAL SUMMARY

Computer Science and Data Analytics undergraduate at IIT Patna focused on data analysis, KPI reporting, dashboard development, and business insight generation. Skilled in SQL, Python, Excel, Power BI, data cleaning, exploratory analysis, and clear communication for Data Analyst and Business Analyst roles.

EDUCATION

Indian Institute of Technology Patna

2023 - 2027

BS in Computer Science and Data Analytics | CPI: 9.06 / 10

SKILLS

Data Analysis: EDA, Data Cleaning, KPI Tracking, Statistical Analysis, Business Insights

Programming: Python, SQL, Java, MySQL, Joins, Aggregations, Subqueries

Reporting: Power BI, Excel, Dashboards, Data Storytelling, Business Reports

Tools: Pandas, NumPy, Matplotlib, Git, GitHub, VS Code

Business: Operational KPIs, Timeline Analysis, Process Tracking, Team Collaboration

EXPERIENCE

Summer Research Intern

Jun 2026 - Present

NIT Srinagar, Department of Computer Science and Engineering | On-site

- Selected for faculty-guided research work involving analytical problem solving, workflow documentation, and research communication.
- Apply structured methods to break down open-ended technical questions and prepare clear findings for academic review.

Data Analytics Research Intern

Jan 2026 - Apr 2026

IIT Bhilai | On-site

- Cleaned and analyzed structured datasets using Python and Excel to improve reliability before interpretation.
- Performed EDA, identified patterns and anomalies, and built visualizations to communicate research findings clearly.

Data and Business Operations Intern

Dec 2025 - Feb 2026

INGLU | Remote

- Tracked operational KPIs, execution timelines, workflow updates, and business tasks for management visibility.
- Maintained structured reports and collaborated with team members to convert operational data into follow-up actions.

PROJECTS

Food Delivery Analytics Dashboard

[Live](#) [GitHub](#)

- Analyzed delivery records to monitor delays, ratings, efficiency, and bottlenecks through dashboard-ready KPIs.
- Produced an operational view that helps identify service issues and prioritize improvement areas.

E-commerce Store Analysis

[GitHub](#)

- Cleaned transaction data and analyzed revenue trends, product performance, customer behavior, and inventory signals.
- Built business insights to support pricing, inventory planning, customer targeting, and sales performance review.

Personal Portfolio Website

[Live](#) [GitHub](#)

- Built a responsive HTML, CSS, and JavaScript portfolio with resume access, project links, and recruiter-focused contact paths.

LEADERSHIP, ACHIEVEMENTS, AND CERTIFICATIONS

- Received Academic Letter of Recommendation from IIT Patna faculty; selected for McKinsey Solve Assessment.
- Media and PR Coordinator, TEDx IIT Patna; NSS Coordinator for operations and events.
- Certifications: IBM Data Analytics; Deloitte Australia Data Analytics; Tata Data Analytics Virtual Experience; Google Ads; Python Programming by Technophilia.
